Summary of Items Observed:

On this date, Caltrans Office of Structural Materials (OSM) Quality Assurance (QA) Inspector Edward Leach was present to randomly observe and document the welding and Quality Control (QC) functions performed by ZPMC personnel relative to the fabrication of SAS Superstructure project. While on site, the QA Inspector noted the following work.

Deck Panel PJP Ultrasonic Testing (UT)

The QA Inspector performed ultrasonic testing (UT) verification for 10% of the partial joint penetration (PJP) welds on top deck panel designations, DP004-001 & DP049-001. ZPMC UT personnel previously performed 15% UT verification for these two panels. The QA Inspector completed UT verification on weld joint designation 001 for DP004-001 and weld joint designation 001 and 010 for DP049-001. The results of the UT verification were compiled on a TL-6027MOD UT report.
